Education

MVJ College of Engineering

Bachelor of Engineering(B.E) in Computer Science

Bengaluru, Karnataka

CGPA - 8.34

Gnyan Gangotri Independent PU College

PUC in Science (PCMB)

Jamkhandi, Karnataka

Percent - 93.5

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Systems Programming
- Software Methodology
- Database Management
- Internet Technology
- Computer Architecture

Experience

Pushkala Technologies Pvt.Ltd

Jan 2026 – May 2026

Software Engineer Intern

Bengaluru, Karnataka

- Developed a Flutter and Flet mobile app with a Python Flask backend, and built interactive desktop, ensuring end-to-end application functionality
- Trained and fine-tuned a YOLOv8 object detection model, managing the full pipeline from data preparation to evaluation and deployment.
- Built an Agentic AI system that generates VLSI code from natural language prompts, automating hardware design workflows using AI.
- Redesigned the company website using HTML and CSS, enhancing visual design and overall user experience.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.

Edunet Foundation

August 2025 – Sep 2025

Front End Web Developer Intern

Bengaluru, Karnataka

- Developed responsive web interfaces using HTML, CSS, and JavaScript, improving usability across desktop and mobile devices.
- Implemented clean, structured frontend code following best practices for readability and maintainability.
- Identified and fixed cross-browser compatibility issues, ensuring consistent performance across platforms.

Projects

SwiftMeet: Smart Appointment Planner | Python, Flask, Google Maps API, HTML/CSS

2026

- Built a location-based appointment booking system using Flask and MySQL, with RESTful CRUD APIs, robust backend logic, and service-specific time slot validation.
- Integrated Google Maps API to recommend nearby services based on distance, travel time, and real-time traffic conditions
- Designed and implemented a fully responsive UI using HTML and CSS, ensuring a seamless booking experience across all devices.

Wanderlust Adventures– Tourism Platform | HTML, CSS

2025

- Built a responsive tourism platform using HTML and CSS featuring interactive search, filter functionality, and a seamless booking UI.
- Designed and implemented search and filter features to enhance user navigation and content discovery.
- Deployed the platform on Netlify with optimized static assets for improved load performance.

Face Recognition System using Machine Learning | Python, OpenCV, face recognition

2025

- Developed a real-time face recognition system using computer vision techniques.
- Trained custom dataset for accurate identity detection.
- Implemented live webcam-based recognition with instant labeling.

Technical Skills

Languages: Python, Java, C, HTML/CSS, SQL

Developer Tools: VS Code, Eclipse, Postman, Jupyter Notebook, IntelliJ

Technologies/Frameworks: FastAPI, Flask, Linux, GitHub, NGINX, AWS (Basics)

Certifications

- Web Development Fundamentals | **IBM SkillsBuild**
- McKinsey Forward Program | **McKinsey & Company**
- Python Programming | **Udemy**
- Introduction to Programming Using HTML and CSS | **Udemy**
